

## Richard Lee, DDS, New York, NY

To Whom It May Concern:

My experience with Alan Clemens was completely positive. Alan appraised my practice accurately utilizing his years of experience. Within one week of listing my practice, he overwhelmed me with multiple qualified buyers. He sold my practice for full price in this bad economy. The whole process went very smoothly. I appreciated all his help and guidance during this transition and purchase. His professional expertise and personal dedication to this deal have been nothing less than spectacular!
